Anti sexual harassment cell in association with IQAC

DATABASE IS CONTROVERSIAL TOWARDS SEXUAL ISSUES

Anti sexual harassment cell in association with IQAC was conducted a debate program on maintenance of database management system on Sexual issues recorded till 7th July 2018

21 members of B A / B.Sc / B. Com/ B C A registered for the Debate program. The Debate was conducted for our students and teaching and non teaching faculty members to create the awareness about Anti sexual harassment at Akka Mahadevi Sabhangana in our campus on 29th September 2018, Saturday..

11 students talk in favor of the subject and 10 students talk against the subject. All the students participated in the program with enthusiasm.

Nowadays record keeping is easy due to the Database management system. The victim will report the sexual harassment at respective area police station. The First Investigation reports were taken by the police station clerks. It will be forwarded to the higher authority. During this process many counseling steps are involved.while doing this process many of the victims are afraid of the questions asked by the woman police. After the process the counselor writes the report by quoting the names of the victims and opponents in the data base.

The higher authority will monitor the cases very frequently and try to give suggestions. Many times the cases will go to the Chief Justice. Due to DBMS the victims will track the position of the complaints. The participants of our college benefited from the program. 110 members participated in this program.

During the valedictory program Principal addressed the gathering how they have to take care of themselves. What are the situations men and women are facing both at campus and outside the campus. He also highlighted the POSH rules and explained about Social media impacts. He motivated the students to take part in these types of cell activities The principal distributed the prizes for the winners.
