About National Mathematics Day, - 22/12/23

The National Mathematics day program organised by the Mathematics department with the involvement of students was a successful program. It helped us in building team work spirit, the interaction with our juniors while planning and organising the program made us learn ~~new~~ new things. Conducting the quiz competition was one of the good activity organised by mathematics department brought more fun and helped us gaining knowledge.

The chief guest Dr. P. Usha as a resource person inspired us. She shared the adequate knowledge about different fields of mathematics. And we learned new things like coding and decoding using math. We also learned how we ~~used~~ use mathematics in our daily life. We are thankful for inviting her.

The end was a bit messy as giving snacks in between the program was not a good idea. We hope our ~~juniors~~ juniors make this day even more better in further coming years.

Thank You.
